Subject: Microsoft Settlement

The concerned parties in this frivolous lawsuit **MUST SETTLE** so Microsoft (and the industry as a whole) can continue to move ahead with the freedom to innovate and thus create jobs to bring this country out of its recession.

I have been unemployed since June 2001 when my job was eliminated. I would much rather see all the concerned use their time, talent, and resources to help put U.S. citizens back to work!

Thank you.
